SKILLS

Course Completed

- Network Exploitation Basics,
- The Complete OSINT (Open Source Intelligence) Training,
- Web design for beginner

Technical Skills

- C
- C++
- PYTHON
- NMAP
- HTML, CSS

Soft Skill

- Leadership
- Interpersonal Skills
- Time Management

EDUCATION

Bachelor of Computer Science and Engineering 2024 - Present

NATIONAL ENGINEERING COLLEGE

CGPA: 8.71

HIGHER SECONDARY

St. Xaviers Higher Secondary School 2021 - 2023

Grade : 93.6%

PROBLEM-SOLVING EXPERIENCE

https://leetcode.com/u/Hari_Ganesh_R/

https://www.skillrack.com/faces/resume.xhtml?_af=485830&key=9dd1eddbba3ada563be737c4555535f6361cb91e

PROFILE

Motivated Computer Science Engineering student with strong interests in full stack development and cybersecurity. Skilled in building robust applications using modern development practices and analyzing systems for security weaknesses. Passionate about solving real world problems through clean architecture, secure coding, and continuous learning, while seeking opportunities to apply expertise and grow as a versatile engineer.

INTERNSHIP

MISTRAL

JUN 2025 - PRESENT

- Mistral mmWave Radar Intern, working on hands-on sensor data analysis, signal processing basics, and real time testing of mmWave radar modules.
- Implemented and tested algorithms on IWR6843AOP sensor modules to optimize object detection accuracy.

PRODIGY INFOTECH

Aug 2025 (1 Month)

- Developed projects related to Cybersecurity basic algorithms like **Ceaser Cipher, Image Encryption, Keylogger, Password Checker.**
- Tech Stack - **Python (Tkinter)**

PROJECTS

CODEVERSE - WEBSITE

- Developed a complete website for an intra-college competition using HTML, CSS, and JavaScript, supported by Antigravity AI for design and workflow acceleration.

PAPERHUB - TELEGRAM BOT

- Developed a bot that stores a previous year question paper with subject name and year, based on the user prompt, it returns the exact question paper.
- Tech Stack - **N8N.**

LEAST LAXITY FIRST

- Least Laxity First (LLF) scheduling algorithm using Python with a graphical user interface (GUI) that visually displays process scheduling using a Gantt chart.
- Tech Stack - **Python.**

ACHIEVEMENTS

- Secured 2nd place in solving Software security challenges during the Bootcamp on **"Mastering Software Security and Vulnerability Assessments"** conducted by IITD&M
- Notable participant in "IIT Bombay FOSSEE-AAI Geospatial Mapathon 2025 (Edition V),"
- Won 2nd prize in Capture the flag conducted by KPR College, Coimbatore.
